校長的話

Miu Wo School is committed to providing students with comprehensive and personalized development in **moral, intellectual, physical, social, and aesthetic** aspects. Our goal is to equip students to meet the challenges of the 21st century, ensuring their adaptability to a rapidly changing world and preparing them for future success. Here are several key aspects in which our school focuses on nurturing students:

1. Cultivating self-learning abilities:

Developing self-learning abilities is one of our important objectives. We strive to assist students in establishing good study habits, including setting regular study plans and managing their time effectively. Furthermore, we encourage students to actively explore and ask questions, fostering their curiosity and thirst for knowledge. We provide diverse learning resources and challenging tasks, leveraging platforms such as Google Classroom, Wordwall, and Nearpod to distribute materials and facilitate interactive learning, thereby stimulating their motivation to learn. Additionally, teachers impart learning strategies and techniques, such as summarizing notes and using mind maps, to help students learn and apply knowledge more effectively. Finally, we provide positive encouragement and feedback to support students' ongoing progress.

2. Fostering innovative thinking:

We believe that innovation is a key factor in 21st-century success. Hence, we encourage students to develop innovative thinking and problem-solving skills. Through classroom teaching, group activities, and multidimensional learning experiences, we enable students to learn how to generate new perspectives, seek innovative solutions, and have the courage to try new approaches.

3. Emphasizing technology application:

In the digital era, technology has become an integral part of our lives. Teachers utilize various facilities and resources, such as electronic whiteboards and online learning platforms, to help students enhance their learning efficiency through technology. Moreover, we encourage students to participate in activities related to programming, robotics, and artificial intelligence, cultivating their competitiveness in the field of technology.

These are several important areas in which we train students to meet the challenges of the 21st century. We believe that this training will help students navigate this rapidly changing and highly competitive era, laying a solid foundation for their future and enabling them to excel in the challenges of the 21st century.

梅窩學校一直致力讓學生在德、智、體、群、美各方面都有全面而具個性的發展，並裝備學生迎接廿一世紀的挑戰，以確保他們適應不斷變化的世界，應付未來所需及獲得成功。以下是我們學校致力培育學生的幾個關鍵方面：

1. 培養自學能力：

培養自學能力是我校培育學生的其中一個重要目標，我們致力協助學生建立良好的學習習慣，包括定期制定學習計劃和管理時間。其次，我們亦鼓勵學生主動探索和提問，培養他們的好奇心和求知慾，並為他們提供多元化的學習資源和挑戰性的任務，如利用Google Classroom、Wordwall 及Nearpod等學習平台發放教材及進行互動學習，藉以激發他們的學習動機。同時，老師亦教導學習策略和技巧，例如摘錄筆記、腦圖等，幫助他們更有效地學習和應用知識。最後，給予積極的鼓勵和回饋，讓學生持續進步。

2. 培養創新思維：

我們相信創新是廿一世紀成功的關鍵。因此，我們鼓勵學生發展創新思維和解決問題的能力。老師透過課堂教學、分組活動和全方位學習活動等，讓學生們學習如何提出新的觀點、尋找創新的解決方案，並勇於嘗試新的方法。

3. 強化科技應用：

在數位時代，科技已經成為不可或缺的一部分。老師利用不同的設施和資源，如電子白板及網上學習平台等，讓學生們學習使用科技提升學習效能。此外，我們亦鼓勵學生參與編程、機器人和人工智能等與科技相關的活動，以培養他們在科技領域的競爭力。

這些都是我們培訓學生迎接廿一世紀挑戰的幾個重要範疇。我們相信這樣的培訓能幫助學生面對這個快速變化且競爭激烈的時代，為他們的未來奠定堅實的基礎，讓他們在廿一世紀的挑戰中脫穎而出。

《學校旅行》 二年級 陳柏悅

十一月二十三日是梅窩學校的旅行日。當天早上，老師和社工帶我們全校學生到欣澳迪欣湖旅行。

大約上午十時，我們到達欣澳迪欣湖。一走進公園，我們就看到一排排打理得整齊的花草樹木，不遠處還有一片片綠油油的大草地。我還看到天上的白雲，好像一群群小綿羊。

然後，我們找到一處空曠的地方坐下來，同學們有的玩遊戲，有的談天，有的看風景……

我聽到小鳥吱吱地叫，好像在對我們說：「歡迎光臨！」我還聽到同學們的歡笑聲。這次的旅行，我感到十分愉快。大家都過了開心的一天。

《聖誕聯歡會》 一年級 賴禧活

十二月二十日是梅窩學校舉行聖誕聯歡會的日子。

早上，我先到課室點名。然後，我們到操場上排隊玩社際遊戲，我們玩得很開心。

最後，我們回到課室開大會，我們一邊聽聖誕歌一邊吃東西。我們還進行了班際抽獎，我抽到了俊軒同學送的禮物。

今天，我玩得很開心啊！

《學校旅行》 一年級 陳信哲

十一月二十三日，老師帶我們到迪欣湖活動中心旅行。

早上，老師帶我們坐旅遊巴到目的地。迪欣湖的風景很漂亮，環境清幽。

首先，我們一起到遊樂場溜滑梯，然後到人工湖看烏龜，再到空地上玩社際遊戲。大家玩得十分快樂。

中午時，我們一起在草地上野餐。我跟卓堃一起吃了許多東西，有著條、燒賣和壽司，全部都非常美味！

這天，我玩得很開心！真希望下次學校旅行可以去迪士尼樂園。

《參觀九龍公園》 二年級 王貝霖

十二月八日(星期五)，我和二年級同學一起去參觀九龍公園。我準時到達集合地點，然後我們乘坐旅遊巴出發到目的地。

到達後，我看到漂亮的花朵，還有高大的樹木。公園裏，同學們有的拍照，有的留心聽導賞員講解，有的談天。

公園裏有很多昆蟲，我除了看見蝴蝶，還看見蜜蜂。我一看見蜜蜂，便嚇得跳了起來呢！

最後，我們一起種植小樹苗。這次參觀活動，我們都玩得十分開心呢！

《風》 四年級 鄭雅云

風是看不見的，但是我們可以感覺到它。

春天的風，是暖暖的，柔柔的，風中帶着濕氣，花草樹木最喜歡它了。

夏天的風，是熱熱的，悶悶的，活潑的小狗在街上散步，都會熱得伸出舌頭來散熱。

秋天的風，是涼涼的，爽爽的，人們都喜歡在這個時候上山遠足和燒烤。

冬天的風，是冰冰的，冷冷的，動物們會減少活動，懶惰地睡覺。我也是一樣，不用上學的時候會睡懶覺。

四季的風都有不同的溫度，不同的感覺，隨着你的心情喜惡而變化。

《迪欣湖旅行》 三年級 陳希雅

十一月二十三日 星期四 晴

今天天氣風和日麗，老師帶我和同學們到迪欣湖旅行。

那裏景色怡人。同學們有的在吃東西，有的在玩耍，有的在談天說地。大家都眉開眼笑，玩得不亦樂乎。

當自由活動時，我細細品嚐媽媽為我精心準備的餐盒：有芝士、壽司、香腸……我吃得津津有味。

然而，正當我吃得津津有味時，突然發現我的水壺裏沒有水了，我立即告訴施老師，施老師便到便利店買來了冰涼的水，然後把水分給我和同學們。

我喝了一口水，感到透心涼，所有的悶熱都一掃而空，身心無比舒暢。我非常感謝施老師買水給我們。

自由活動後，我們便聚在一起玩社際遊戲——「收賣佬」和「數數數」。雖然我所屬的藍社沒有勝出，但是我玩得很開心。

最後，我們要依依不捨地離開了……今天我真的過了一個又開心又難忘的學校旅行，希望下一次的學校旅行也可以像這次一樣好玩。

Today was David's birthday. So David and his mum went to Fun-Fun Toy shop to buy him a gift.

When mum was looking at the toy cars, David saw a lot of robots. With only one look, David knew he wanted a robot. David took one and started to play with it.

Then he accidentally dropped the robot and its arm broke off. At that moment he was afraid. He didn't know what to do.

Suddenly Mum came up. David tried his best to hide the robot but she could see it. Mum was angry with David. She shouted, "David, do you know you need to buy the robot first? Now I need to pay for it. It's ninety dollars! It's very expensive."

Bonnie's Happy Day

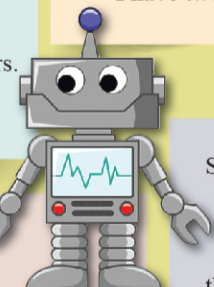

Bonnie likes watching TV very much. She likes documentaries a lot. She thinks they're exciting. She doesn't like game shows. She thinks they're boring.

One day their TV was out of order so, she couldn't watch TV anymore. She wanted to go to the playground with a grandpa.

She walked up to her grandpa and said, "Grandpa, can we go to the playground? I want to play there and make new friends like everyone does." "Sorry, we can't go. It's raining right now!" Grandpa replied.

Grandpa lives in a small hut. He always meets his friends at a small market near his house and he walks there everyday to buy food, clothes or shoes. He walks for ten minutes. He usually meets his friends there every morning. He and his friends played hide-and-seek and Chinese chess when he was young. Grandpa said it was fun to play these games. When he was young, he was very good at playing Chinese chess.

Grandpa asked Bonnie if she wanted to play Chinese chess with him. Bonnie said, "Yes!" Later that day it stopped raining. They went to the playground to play hide-and-seek. They had a happy day!

《我和媽媽難忘的經歷》 五年級 鄧琪琪

我已經三年沒有與母親相見了，我最不能忘記的是她慢慢地走出門外的那一刻。

那年夏天，媽媽終於趁着空閒從內地過來探望我。我還記得那天的前一個晚上，聽到這令人興奮的消息，我整個晚上都睡不着，一直期待着第二天的到來。

到了第二天的下午，我終於見到母親了。看見媽媽的那一刻，我忍不住激動地哭了。媽媽看見馬上走上前擁抱我，說着：「傻孩子，別哭啦！再哭就不好看了。」我聽着媽媽溫柔的聲音，又哭了一次。

媽媽趁這次短暫的相聚，帶我一起去參觀了大嶼山天壇大佛。我們在那裏看見許多佛像。午膳時，我們還在那寺廟吃了素食，美味又有營養。

時間過得真快啊！一眨眼就到了和母親分開的那一天。我一直緊緊的抱着媽媽，嘴裏一直念着：「媽媽，您可否多住幾天？求求您！晚一點回去是沒有問題的！」

可是，媽媽因為工作在身無法改變行程，我也只能依依不捨地看着媽媽的背影走出門外……

This is my dream school. It is called Raynold's Rainbow School. It has many rooms.

There is a Popsicle Room on the fourth floor. It has desserts and drinks. We can eat and drink there. We mustn't litter there. There is a library on the third floor. It has lots of books. We can read books there. We must keep quiet there. I like my dream school. It is so cool!

When My Mother was a Child

My mother could talk and walk when she was one. It's amazing for a baby but she couldn't do up her buttons by herself. She was very smart when she was one.

My mother could draw, sing lovely songs and knew how to call family names when she was only two. In the restaurant, she was very well behaved.

My mother could tie her shoelaces by herself and dance when she was five but she couldn't play the piano or swim.

My mother loved to play toys and play with a rice cooker with my grandmother in her spare time. She was very happy to play with my grandmother.

I think, when my mother was a child, she was very smart because she could talk and walk when she was only one. Usually, a baby cannot do a lot of things when it's one. I think, she was very happy in her childhood too because she could play with my grandmother.

Natural Disasters

There are many natural disasters that happen around the world. In some places, there are droughts. People and animals do not have enough food and water. Farmers cannot grow crops because the land is too dry.

In some other countries, there are many typhoons in summer. The strong wind blows the houses out and damages the power lines. People cannot rebuild their houses and repair the power lines because they are too poor. Also, plants and crops are destroyed by the heavy rain, so people do not have enough food to eat.

There are earthquakes in other countries. After the earthquake, buildings and bridges collapse. Many people lose their houses, so they need to live in tents. However, people cannot sleep well because conditions in the tents are terrible. There are many sick people but there are few doctors to help patients and there is very little medicine.

What can we do to help natural disaster survivors? We can either donate money to charities or donate food, to food banks so that we can help victims of natural disasters.

A Hiking Trip

Last Sunday, my parents, Sam and I went to the Tung Chung Park. The weather was nice and sunny. We reached the top of the mountain.

Suddenly, Sam saw some wild berries. He ate them in a second. I told Sam not to eat, but it was too late.

After that, Sam started to feel uncomfortable. Dad asked him 'Sam, are you okay?' My mother and I were panicking. I looked around to see if there was anyone to help us. My mother called an ambulance.

In the end, the ambulance arrived and took Sam to the hospital. Sam felt much better and we went home late that night.
